Dear Patients,

We at The Watergate and Burke Allergy and Asthma Centers and The International Cough Institute are entirely committed to doing everything possible to ensure the safety and continued well-being of our patients, clients and colleagues.

At present, our practice **will remain open**. For current patients, we are now **offering telemedicine** so you can be clinically guided and advised over the phone **without having to leave your home**.

Be assured that our medical offices are continuing to follow applicable infection-control measures and precautions so that we can continue delivering the highest quality medical care for our patients during this time.

Importantly, we are following the Centers for Disease Control (CDC) guidelines and staying up to date with any new recommendations for COVID-19. In addition, we are closely monitoring guidance from local, state and federal governments in order to minimize the spread and impact of the virus.

Thank you for your cooperation during this time. If you have any questions or concerns or if you are not feeling well, please feel free to contact our DC office at (202) 342-1984 or our Burke office at (703) 425-8616.

Stay Healthy!
Dr. Talal M. Nsouli
